

Welcome to the Fifth Annual Hawaii International Conference on Education

Aloha!

We welcome you to the Fifth Annual Hawaii International Conference on Education. This event offers a rare opportunity for academics and other professionals from around the world to share their broad array of perspectives. True to its primary goal, this conference provides those with cross-disciplinary interests related to education to meet and interact with others inside and outside their own discipline.

The international attendees to this conference bring a variety of viewpoints shaped by different cultures, languages, geography and politics. This diversity is also captured in the Hawaii International Conference's unique cross-disciplinary approach. The resulting interaction energizes research as well as vocation.

With Waikiki Beach, Diamond Head and the vast South Pacific as the backdrop, this venue is an important dimension of this conference. For centuries a stopping place of explorers, Hawaii has historically been enriched by the blend of ideas that have crossed our shores. The Hawaii International Conference on Education continues this tradition in the nurturing spirit of Aloha. Along with its ideal weather and striking beauty, the Hawaiian Islands provide natural elements to inspire learning and dialogue.

The 2006 conference was a great success. We hosted more than 1,350 participants representing more than 40 countries. Thank you for joining the 2007 Hawaii International Conference on Education!

The 2008 Hawaii International Conference on Education will be held January 5 – 8, 2008 at the Waikiki Beach Marriott Resort & Spa, and the Hilton Waikiki Prince Kuhio. Please check our website in early April for more details!

Keynote Speaker

Sunday

Time: 9:45 – 11:15 AM

1/7/2007

Room: Grand Ballroom (Pacific Beach)

Keynote Speaker:

Karen Symms Gallagher, Ph.D.
Emery Stoops and Joyce King-Stoops Dean
The Rossier School of Education
University of Southern California

Karen Symms Gallagher, an expert on the dynamics of teacher education reform, was appointed dean of the Rossier School of Education July 1, 2000. Dr. Gallagher previously served six years as dean and professor of educational policy and leadership in the School of Education at the University of Kansas. She is credited with leading the school's organizational restructuring that strengthened the school's programs and boosted its national rankings. She is also credited with completing a \$14 million construction of Pearson Hall, the school's new home.

Since coming to USC's Rossier School of Education, Dr. Gallagher is credited with leading the faculty, staff, students and alumni in rethinking the school's entire academic program. The redesigned doctorate in education (Ed.D.) prepares working professionals to be educational leaders in practice. It is a three-year program, modeled after other professional degrees like the M.B.A. and J.D., and has received national attention for its innovative combination of core courses and thematic research approach. In addition, the school's ranking in *US News & World Report* has moved from 38th to 18th in the last five years, with individual programs like higher education administration ranked in the top 10. Research expenditures have tripled and outreach programs like the school business management certificate have expanded the impact of the school into both K-12 schools and community colleges.

Dr. Gallagher has made numerous presentations on teacher and school leadership development from Boston to Beijing and believes that schools, families and communities must work closely together to achieve genuine education reform. She wrote, *Shaping School Policy: A Guide to Choices, Politics and Community Relations* (1992) and edited the *Politics of Education Yearbook: The Politics of Teacher Preparation Reform* (2000). She has written dozens of scholarly articles in publications ranging from *Educational Policy*; *Research in Higher Education*; *Review of Higher Education*; *College and University*; the *National Forum of Educational Administration and Supervision Journal* to *Early Education and Development*.

In the 1970s, Dr. Gallagher worked as a teacher and administrator in Washington state, North Carolina and Indiana. During the 1980s and early '90s, she taught educational administration at Loyola University of Chicago and the University of Cincinnati. From 1990 to 1991, Dr. Gallagher was staff director and senior policy consultant to the Ohio Commission for Education Improvement, an agency of the Ohio General Assembly. She was associate dean for undergraduate studies in Cincinnati's College of Education during academic year 1991-92 and the college's associate dean for academic affairs from 1992 until she was appointed dean at the University of Kansas in 1994.

Dr. Gallagher is a member of the National Science Foundation's Commission on 21st Century Education in Science, Technology, Engineering and Mathematics. She is also president of the USC chapter of Phi Kappa Phi and a commissioner representing the Association of Independent California Colleges and Universities on the California Commission on Teacher Credentialing. Dean Gallagher has served as president of several national education groups including the Council of Academic Deans of Education in Research Institutions. She is a member of the American Association for School Administrators, the American Educational Research Association, the Association for the Student of Higher Education and the American Association for Higher Education and the Los Angeles NAACP.

Karen Symms Gallagher is a graduate of Western Washington University (BA), the University of Washington (MEd), and Purdue University (PhD) which recently presented her with its Distinguished Alumna Award.

The title of Dr. Gallagher's keynote address is:
